Opening exhibition
Saturday 3 April 2010

In the presence of Gilles Chabrier.

The Gallery

Etienne Gallery, unique, museological and with an international style. Our collection is unsurpassed in the Netherlands in terms of scale, profiling and quality. A meticulously selected collection of glass sculptures and paintings of the highest professional and artistic quality is housed in our wonderfully designed 1000 m² gallery. Purity of materials, impeccable skills and an intense, deep expressiveness are paramount elements in our ongoing search for new art.

You will see a great deal of work by foreign artists and several Dutch artists that are very difficult to find elsewhere in The Netherlands. For example, contemporary American figurative or East European abstract art. Moreover, we have an exceptional and extremely-extensive collection of glass sculpture, unparalleled in the Netherlands in terms of size and sophistication. A sublime collection of art that, in almost 30 years that we have existed, has touched both a wide audience and a group of collectors.
